She started this session in online to the students with a slide show presentation, Gender Sensitization is a basic requirement to understand the sensitive needs of a particular

gender. It helps us to examine our personal attitudes and beliefs and question the 'realities' that we thought we know. The need for this sensitivity has been felt and realized through times immemorial and in almost all kinds of human existence, across the globe. Recent discourses focus upon the need to sensitize gender issues on campus as many believe that education is the catalyst for change. Educational spaces instill thought and make one have a perception that they believe.

With the help of education, gender sensitization in educational institutes can create awareness among the students and other members of the community about their roles in future as the men and women in the society. Moreover, this is the power of education that can make a great social change in the society at large. Thus, all the possible concerns should be made by the educational institutions to promote the gender equality in education access, learning the process and educational outcomes. As we know that our society is rigid, it is difficult to make changes in the mindset of the people. Therefore, Government should introduce more welfare schemes for females to make them self-independent. Each educational institutes and school should take initiative to understand the gender-related issues and to sensitize its' concerns staffs, teachers, students and society for the women equality. This can also be done through the following means 1. Gender sensitizing cell 2. Gender sensitizing committee 3. Easy redressal procedure 4. Workshops and discussions 5. Gender issues week.

Moreover, Government should also introduce new programs and also make ensure the proper implementation of policies and strategies that ensuring the gender equality and also control all of the concerns related with malpractices towards gender in the society.

Finally the programme ended with a oath of thanks by Dr. I Govardhani, Associate Dean(Grievances, Cells and Committees)
