AWARENESS PROGRAM ON SCHOLARSHIPS, JOB OPPORTUNITIES AND CAREER OPPORTUNITIES FOR OBC STUDENTS

Date : 16/11/2020

Time : 10:00 A.M to 12:00 P.M

Venue : Virtual Mode

OBJECTIVES :

The objectives of organizing a virtual awareness program on scholarships, job opportunities, and career prospects for Other Backward Classes (OBC) students are to enhance accessibility and reach, ensuring that OBC students from diverse locations can participate and benefit from the program. This includes providing comprehensive information on available scholarships, job sectors, and career paths through engaging virtual presentations and workshops. The program aims to foster skill development by offering virtual training sessions on resume building, interview preparation, and essential job market skills, while also facilitating networking and mentorship opportunities in a virtual environment. Ultimately, the program seeks to empower OBC students with the knowledge, resources, and confidence needed to pursue educational and professional opportunities effectively in the virtual landscape, contributing to their social and economic advancement.

DESCRIPTION :

Organizing an awareness program on scholarships, job opportunities, and career prospects for Other Backward Classes (OBC) students in a virtual mode involves leveraging digital platforms to provide accessible and comprehensive information. Resource Person for the program is Dr. K R S Prasad, Dean Student Affairs. The program begins with meticulous research to identify relevant scholarships, job sectors, and career pathways suitable for the OBC community. Engaging virtual sessions are planned with guest speakers, industry professionals, and representatives from educational institutions and government agencies to offer insights into scholarship applications, industry trends, and skill development. Interactive workshops focus on resume building, interview skills, and entrepreneurship exploration, supported by virtual distribution of resource materials such as brochures and online resources. Throughout, the program emphasizes inclusivity, empowerment, and encouragement to inspire OBC students to pursue their educational and professional goals confidently within the virtual environment.

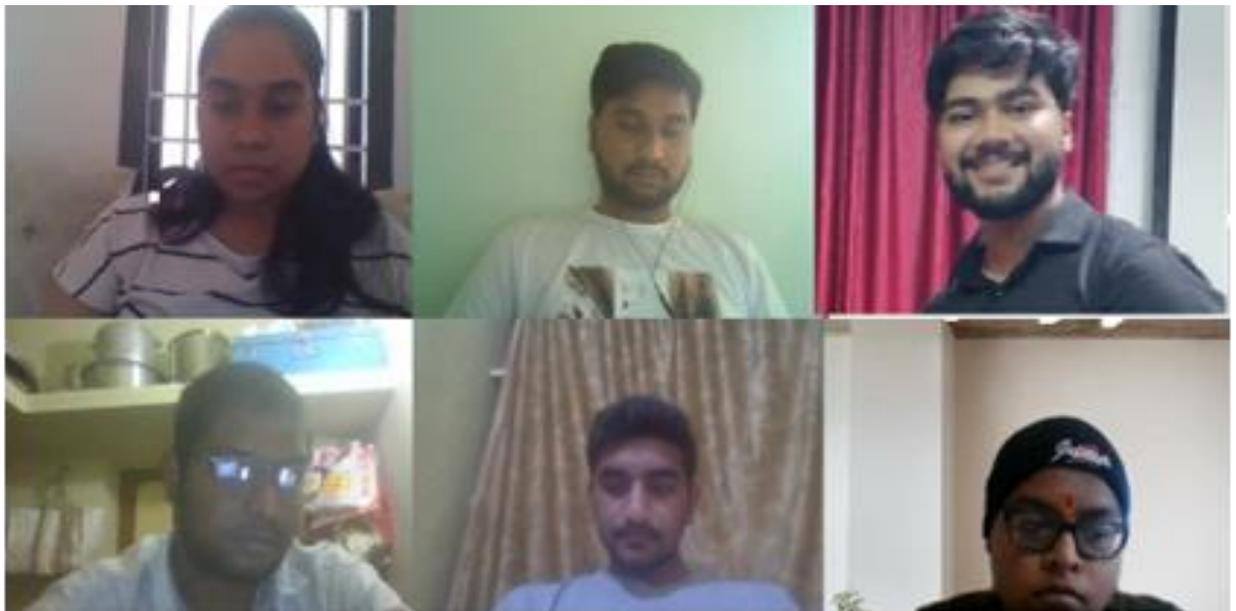

OUTCOMES :

The outcomes of organizing a virtual awareness program on scholarships, job opportunities, and career prospects for Other Backward Classes (OBC) students can be highly impactful. Firstly, increased awareness and access to information about scholarships can lead to higher enrollment rates in educational institutions among OBC students, reducing financial barriers and promoting academic achievement. Secondly, exposure to diverse job sectors and career paths through virtual sessions can inspire students to pursue fields aligned with their interests and skills, boosting employment rates and economic mobility within the OBC community. Additionally, participation in virtual workshops and networking events can enhance students' professional skills and confidence, equipping them with the tools needed to navigate their educational and career journeys effectively in the digital age. Ultimately, these outcomes contribute to the social and economic empowerment of OBC individuals and communities by promoting education, employment opportunities, and inclusive growth in a virtual setting.
