Guest Lecture Pharmaceutical Chemistry:

Introduction:

On the 25th of February 2022, a guest lecture on "Handling of High-Performance Liquid Chromatography (HPLC)" was organized by KL College of Pharmacy, KLEF Deemed to be University. The event aimed to provide students with insights into the principles and practical aspects of operating HPLC instruments, an essential skill in pharmaceutical analysis.

Event Details:

The lecture took place in the R&D Block, specifically in the Central Instrumentation Room (R-510D), from 3:20 PM to 5:20 PM. Dr. Chandra Sekhar, Assistant Professor at K L Deemed to be University, delivered the lecture.

Key Points Covered:

Dr. Chandra Sekhar commenced the lecture by providing an overview of HPLC technology and its significance in pharmaceutical analysis. He elucidated the fundamental principles of chromatography and the importance of separation techniques in pharmaceutical research.

The speaker delved into the intricacies of HPLC instrumentation, explaining the various components of an HPLC system and their functions. He highlighted the

importance of proper maintenance and calibration of HPLC instruments to ensure accurate results.

Practical aspects of HPLC, including sample preparation, injection techniques, and detection methods, were thoroughly discussed. Dr. Chandra Sekhar shared practical tips for optimizing HPLC methods and overcoming common challenges encountered during analysis.

The lecture concluded with a Q&A session, where students actively participated, seeking clarification on various aspects of HPLC operation and application in pharmaceutical research.

Conclusion:

The guest lecture on "Handling of HPLC" provided students with valuable insights into the principles and practical aspects of operating HPLC instruments. Dr. Chandra Sekhar's expertise and engaging delivery style ensured an enriching learning experience for all attendees
