

The viva-voce examination of Ms Kurapati Sravanthi, Reg No: 163220008, full time research scholar working in the department of Physics for the PhD thesis entitled, "Preparation of polymer electrolytes for EDLC super capacitor application" is conducted on 8th January 2024 in the online mode (WebEx) from 3:00 to 4:30 pm. The research scholar has presented and elaborated her research work, and defended successfully in front of the viva-voce panel committee members. Also, the questions raised by the other adjudicators provided with their replies and justifications are raised after the completion of presentation by the panel members. After effective and fruitful discussions followed by the answers given by the scholar, the viva-voce examiner and panel members are satisfied, and hence recommended

and confirmed for the award of PhD degree to Ms Kurapati Sravanthi after necessary verifications and notification released by the university higher authorities. The Dept Head, RPAC chairman, and all other faculty and research scholars congratulated both the research supervisor Dr G Sunita Sundari, Assoc Prof., and the research scholar for the positive result and consideration of award of doctoral degree from the KLEF.
