

## Department of Physics

### Personal care kit donation Under extension activity

On August 15th, 2026, the Department of Physics faculty and students organized a heart-warming initiative to distribute three personal care kit to the girl students of SKCV girls home, near kaza toll plaza, Guntur, under extension activity. This event, held in celebration of India's Independence Day, was a collective effort by the department faculty to extend their support and care to the children. Faculty members and students came together to personally deliver the kits, ensuring that each child received their share. The event was marked by a spirit of generosity and community, reflecting the department's commitment to social responsibility. The children at SKCV girls home expressed their gratitude, making the occasion a memorable and meaningful one for all involved and also distributed the sweets to children.
