Admin Off: 29-36-38, Museum Road, Governorpet, Vijayawada - 520 002. Ph: +91 - 866 - 3500122, 2577715, 2576129

## 15.2.2: Sustainable farmed food on Campus

To promote entrepreneurial development skills and enhance experiential learning, students of the College of Agriculture were assigned projects across various agricultural divisions, including vegetables, leafy vegetables, and flowers.

Each student group took responsibility for planning, cultivating, and maintaining their assigned crops using scientific and sustainable farming practices.

The initiative aimed to provide hands-on exposure to agribusiness management, crop production, and marketing strategies.

After harvesting, the cultivated produce was sold to the stakeholders of KLEF, enabling students to experience the complete agricultural value chain from production to sale while fostering innovation, teamwork, and practical business understanding.

Land preparation for sustainable farming
