

Training Programs for Staff & Students on Environment aspects of Sustainability

The Dedicated Sustainable Activity Training Program conducted by KLEF is designed to actively engage both staff and students in promoting sustainable practices and environmental responsibility. The program focuses on continuous learning and capacity building through annual workshops, Faculty Development Programs (FDPs), and structured training sessions addressing sustainability, energy conservation, waste management, water management, and community outreach initiatives.

These programs adopt a systematic and participatory approach to enhance awareness, build practical skills, and encourage the adoption of eco-friendly practices among participants. Emphasis is placed on experiential learning, collaborative activities, and problem-solving to address real-world environmental challenges. Participants are motivated to contribute innovative ideas and solutions that support sustainable development within the campus and the wider community.

The initiative also integrates sustainability into institutional practices by promoting resource efficiency, reducing environmental impact, and supporting green campus initiatives. Regular monitoring and feedback mechanisms ensure continuous improvement of the program.

Overall, the training program fosters a culture of sustainability, strengthens environmental stewardship, and empowers individuals to actively contribute towards long-term environmental conservation and societal well-being.

S.No	Training Program Name	Weblink
1	Training program on Advanced Sustainable Materials Using Tools and Tech-Driven Research for Modern Educators (ASMTR-2025)	https://www.kluniversity.in/staffclg/pdfs/2025-26/4.pdf
2	Training program on Emerging Trends in Sustainable Design, Intelligent Manufacturing, and Thermal Engineering Systems	https://www.kluniversity.in/staffclg/pdfs/2025-26/6.pdf
3	Training program on AI-Driven Drone Analytics for Self-Sustainable Farming	https://www.kluniversity.in/staffclg/pdfs/2025-26/21.pdf

4	training program_ on Multidisciplinary Innovations in Advanced Sustainable Materials and Technologies	https://www.kluniversity.in/staffclg/pdfs/2024-25/45.pdf
5	Training program on Nanotechnology for Global Challenges: Bridging Science and Sustainability (NanoGloSS)	https://www.kluniversity.in/staffclg/pdfs/2024-25/46.pdf
