

CIVIL ENGINEERING

The following points have been suggested / discussed in BoS Meeting by the members

1. Dr. G. Appa Rao suggested that Number of Text books should not exceed two numbers in syllabus and course handout.
2. In the prescribed text books and references books all information such as ISBN Number, Edition Number, Year Full Address and Revision has to be included in syllabus and Course Handout.
3. In solid mechanics course topics of thick and thin cylinders and their applications to be added.
4. Suggested to include Solid Mechanics by Gere and Waiver Book as References book for Solid Mechanics Course.
5. Suggested to include Design of Concrete Structures by P.C. Varghese, A.K. Jain and Sinha & Roy Books as Reference book for the Course of Design of Reinforced Concrete Structures.
6. Dr. G. Appa Rao Suggested, New M.Tech Programme in Environment is to be named as Environmental Engineering instead of Environmental Technology and Management.
7. Up gradation of Strength of Material Laboratory could be done through MODROBS (Lab Development) by preparing proposal.
8. Members of the BOS felt that Computing Facility in the department is to be improved.
9. Members Suggested Few Editorial corrections in BOS Documentation.
10. Members appreciated that course structure and syllabus prepared is most relevant to the competitive exams like PSUs, GATE, IES and other state level exams and the same is recommended for approval in the Academic Council.
11. Members reviewed the feedback from stake holders not to include objects oriented programming in the curriculum of 1st B. Tech Civil engineering and suggested that the plan of introducing object oriented programming structure is not appropriate.
