## DAC Meeting

**K L UNIVERSITY**  
**SCHOOL OF ARCHITECTURE**  
**MINUTES OF DEPARTMENT ACADEMIC COMMITTEE MEETING**

The Department Academic Committee meeting was conducted in the E218, on 24<sup>th</sup> Sept 2020 at 1:30 pm

### Agenda:

1. To discuss the curriculum for the Academic year 2020 – 21 admitted batch.
2. To discuss upon any addition in the curriculum for the Academic year 2019 – 20 admitted batch.

The following members were present:

1. Ar. Venkatesan Selvaraj	Principal., DAC chairman.
2. Ar. Saleem.A.Qureshi	Professor
3. Ar. Ravi Sankar	Professor
4. Ar.G.VidyaSagar	Assoc.Professor
5. Ar. A.Priya	Assoc.Professor
6. Ar. Harshitha	Asst.Professor

### **Recommendations of DAC:**

The DAC members have recommended the following.

- As per the faculty feedbacks analysis and Council of Architecture regulation 2020, the curriculum for the A.Y 2020 admitted batch to be revised by introducing Theory of Architecture in Ist Semester in place of Indian Constitution was suggested.
- Surveying and Levelling (20AR1255) was moved to IInd semester with reduction in the course from 3 credits to 2 credits.
- As per faculty and industry recommendations, Climatology is to be renamed as Climate Responsive Architecture (20AR1201) and moved to III Semester
- Due to the pandemic situation, the subjects – Architectural Design-I (Basic Design) (20AR1131) and Architectural Design-II (AR1234) have been merged into a single subject

  
**Ar. V. Selvaraj,**  
**PRINCIPAL-ARCH, KLEF.**

– Integrated Architectural Design Studio (20AR1253) based on the recommendation of faculty.

- Ecology and Environment (20UC0009) was converted into an Audit course with 0 Credits.
- Design Thinking and Innovation – I (20UC1102) and Design Thinking and Innovation – II (20UC1203) were added for A.Y 2019 admitted batch in IIIrd and IVth Semester respectively based on the recommendations of faculty.

...refer **Annexure-A3**

#### **Resolution of the DAC:**

The following points were discussed and resolved:

Upon discussing the committee resolved to approve DAC recommendations and propose enclosed Program development documents and curriculum for B.Arch Program for 2020- 21 for BOS approval.

**20AR1101: Theory of Architecture**

L-T-P-S: 3-0-0-0

Credits: 3

Prerequisite: Nil

**Mapping of Course outcomes (CO) with program outcomes (PO):**

CO NO	Course Outcomes	PO	BTL
CO1	Introduction to Architecture and basic understanding of architectural space and form development.	PO2	2
CO2	To learn the components of building circulation and its relation to architecture.	PO1	2
CO3	An understanding on architectural aesthetics in designing a building & also understand the key role of principles applied in architecture.	PO4	2
CO4	Students should understand the functioning of design process and its application in architectural buildings through case studies.	PO4	2

**Syllabus:**

Architectural Space and Mass: Definition of architecture- Architect role and responsibilities – primary elements of architecture 2D & 3D - Space defining elements, openings in space defining elements, spatial relationship, spatial organization, Primary forms, properties of form, transformation of forms - dimensional transformation, subtractive, additive forms, organization of additive forms - Articulation of forms –Degree of Enclosure, Light and View. Circulation: Movement through space - Components of building circulation - The building approach, The building entrance, Configuration of path, Path space relationship, Form of circulation space -Circulation diagram for residence and restaurant. Aesthetic Components of Design: Proportion & scale in relation to human scale, Modular, Visual and Human Scale - Exploration of the basic principles of design such as balance, rhythm, repetition, transformation, symmetry, hierarchy, axis with building examples. Involves the study of the other principles that govern an architectural composition such as Unity, Harmony, Dominance, Fluidity, Emphasis, Contrast etc. Design Process and Analysis of Building: Design process –integration of aesthetics and function - Understanding of formative ideas, organization concepts, spatial characteristics, - Massing and circulation in design analysis of the following buildings: Falling water house, & Guggenheim Museum by F. L. Wright -Villa Savoye & Chapel of Notre-dame DuHaut by Le Corbusier.

### 20AR1153: Integrated Architectural Design Studio – 1 (Basic Design)

L-T-P-S: 0-8-0-0

Credits: 8

Prerequisite: Nil

#### Mapping of Course outcomes (CO) with program outcomes (PO):

CO NO	Course outcome	PO/PSO	BTL
CO1	An understanding of the qualities of different elements as well as their composite fusions	PO1, PSO2	2
CO2	An ability to engage and combine the elements of design in spontaneous as well as intentional ways to create desired qualities and effects	PO1, PSO2	2
CO3	Development of required skills – observation / analysis / abstractions / interpretation / representations / expressions through models and drawings	PO3, PSO2	2
CO4	Understanding of 3D Composition by involving students in a few exercises which will help generation of a form from a two dimensional / abstract idea.	PO3, PSO2	2

#### Syllabus:

Elements of Design: Properties, qualities and characteristics of point, line, direction, shape, form, colour, texture and light. Extraction of basic forms from natural and manmade environment. Enquiry into form both geometric and non-geometric entities. Exercises on Visual Composition and Pattern making. Principles of Design: Understanding Architectural Aesthetics. Principles such as Balance, Symmetry, Asymmetry, Proportion, Scale, Harmony, Rhythm, and Contrast. Exercises on Visual Composition and Pattern making, Logo design, Collage, Abstraction. Composition using different types of Grids – Orthogonal, Radial, etc. Evolution of Forms and Spaces: Study of solids & voids to evolve sculptural forms & spaces; explore play of light & shade and application of colour. Introduction to external & internal forms, analytical appraisal of forms, their quality; Concept of space, interrelationship between space, volume, and order; Variations in forms with planer juxtapositions. Anthropometric Study and Ergonomics: Anthropometric study and ergonomics human figure (including differently able persons), dimensions of furniture - relationship with human anthropometrics with freehand drawing of human figures, vehicles, trees, buildings etc. to have a better understanding of proportion.
