VIII. GRADING

a) The overall performance of the student is described by Cumulative Grade Point Average (CGPA) and is calculated taking into consideration grade obtained by the student in all credited courses and credits attached to it. It is the weighted average of the grade points of all the letter grades obtained in credited courses by the student from his entry into the University. CGPA is computed as follows:

$$CGPA = \frac{c_1g_1 + c_2g_2 + \dots + c_ng_n}{c_1 + c_2 + \dots + c_n}$$

where c_1, c_2, \dots, c_n denotes credits associated with the course applied and g_1, g_2, \dots, g_n denotes grades obtained by the student.

b) At the end of the evaluation of all components based on the performance of the student in the course, each student is awarded with a letter grade on a **relative scale**. The list of letter grades and its connotation is given below:

Grade	Qualitative Meaning	Grade Point Attached
X	Excellent	10
A	Very Good	9
B	Good	8
C	Fair	7
D	Satisfactory	6
E	Pass	5
F	Fail	0

c) A student getting less than 40% of overall score and less than 40% in the comprehensive examination will be considered to have earned F grade. In combined theory and clinical courses along with overall 40% score, the student should get independently 40% in both theory and clinical components.

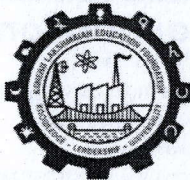

d) A student who obtains F grade has to reappear for the comprehensive examination. However, such a student need not attend the classes and marks obtained in continuous internal assessment for 40 marks, will be carried forward for the subsequent attempts of the student.

e) In case of a student who has earned F grade, after the student has fulfilled all the requirements for passing, it will be converted into a valid grade by considering grade cut offs of the batch in which candidate has passed the course.

f) At the end of each semester the University issues grade sheet indicating the CGPA of the student. However, grade sheet will not be issued to the student if the candidate has any outstanding dues.

g) To convert CGPA into equivalent marks a multiplication factor of 9 is adopted. Ex: CGPA 7 is equivalent to $7 \times 9 = 63$ marks.

$$CGPA = \frac{c_1g_1 + c_2g_2 + \dots + c_ng_n}{c_1 + c_2 + \dots + c_n}$$

where c_1, c_2, \dots, c_n denotes credits associated with the course applied and g_1, g_2, \dots, g_n denotes grades obtained by the student.

b) At the end of the evaluation of all components based on the performance of the student in the course, each student is awarded with a letter grade on a **relative scale**. The list of letter grades and its connotation is given below:
