Academic Staff College

16.08.2016 to 17.08.2016

2-day workshop on "Digital Learning" by Mr.Shanat Kumar, Head-E Learning, iNurture Education Solutions, Bangalore from 16.08.2016 TO 17.08.2016 for the nominated 50 faculty of the K L University in Sun Flower Hall, K L University.

"Digital learning is any type of learning that is facilitated by technology or by instructional practice that makes effective use of technology. Digital learning occurs across all learning areas and domains. It encompasses the application of a wide spectrum of practices including: blended and virtual learning."

The resource person has highlighted the importance of Academia going for the digitalisation of the teaching learning process. The teaching can be taken with webinars, because the Digital learning technologies can enable students to grasp concepts more quickly and fully, to connect theory and application more adeptly, and to engage in learning more readily, while also improving instructional techniques, leveraging instructor time, and facilitating the widespread sharing of knowledge. Digital technologies will enable this in new and better ways and create possibilities beyond the limits of our current imagination.

On the first day the participants were lead through understanding of importance of digital learning and the methods to apply to enhance the digital learning process and later on the next day the participants were taken to the computer lab to give exposure to the learning of making the digital lessons so that the students are helped to learn from anywhere because today's students are digital natives.

Digital learning is any type of learning that is facilitated by technology or by instructional practice that makes effective use of technology. Digital learning occurs across all learning areas and domains.

It encompasses the application of a wide spectrum of practices including:

- blended and virtual learning
- game-based learning
- accessing digital content
- collaborating locally and globally
- assessment and reporting online
- active participation in online communities
- using technology to connect, collaborate, curate and create.

Mr.Shanath, iNurture Technologies, Bangalore, an industry Expert delivering session on "Digital Learning"
