Dr. I. Govardhani, Principal, ASC giving inaugural address

Principal, Academic Staff College, Dr. I. Govardhani during her inaugural speech, addressed the faculty members on the importance of FDP on implementing flipped classroom concept. She also stated that the Academic Staff College is taking all the steps to train the faculty on all the advanced teaching and learning pedagogies.

Resource person:

1. Sri Hari Kiran Vege, Dean (Addl) Academics, KLEF

The Day-1 session was handled by Sri Hari Kiran Vege, Dean (Addl) Academics, KLEF which covered the implementation of flipped classroom, wherein “what is traditionally done in the class is done outside the class and vice versa. He explained how the change takes place from passive to active, teacher directed to self directed, content centric to inquiry based, individual to collaborative or team oriented, instructional paradigm to learning paradigm, sage on the stage to guide on the side etc

Dr. Hari Kiran Vege, Addl. Dean, Academics addressing the participants

Dr. Harikiran also explained about the evaluation standards and practices that are followed by university. He said evaluation should be such that the examination department has very little to do in moderation.

Day-2,30-12-2023.

1.Shri C. Shanath Kumar, Director (CDOE), KLEF.

Dr. Shanath Kumar handling the session

Day-2 session was handled by Shri C. Shanath Kumar, Director (CDOE), KLEF. The session presented the 6 easy steps for implementing flipped classroom.

The steps include:

1. Plan

Figure out which lesson in particular to be flipped. Outline the key learning outcomes and a lesson plan.

2.Record

Instead of teaching this lesson in-person, make a video. A screencast works. Make sure it contains all the key elements to be mentioned in the classroom.

3.Share

Send the video to the students. Make it engaging and clear. Explain that the video's content will be fully discussed in class.

4.Change

Now that the students have viewed the lesson, they're prepared to actually go more in-depth than ever before.

5.Group

An effective way to discuss the topic is to separate into groups where students are given a task to perform. Write a program, solve a problem, make a video, etc.

6.Regroup

Get the class back together to share the individual group's work with everyone. Ask questions, dive deeper than ever before.

Day-3,1-1-2024.

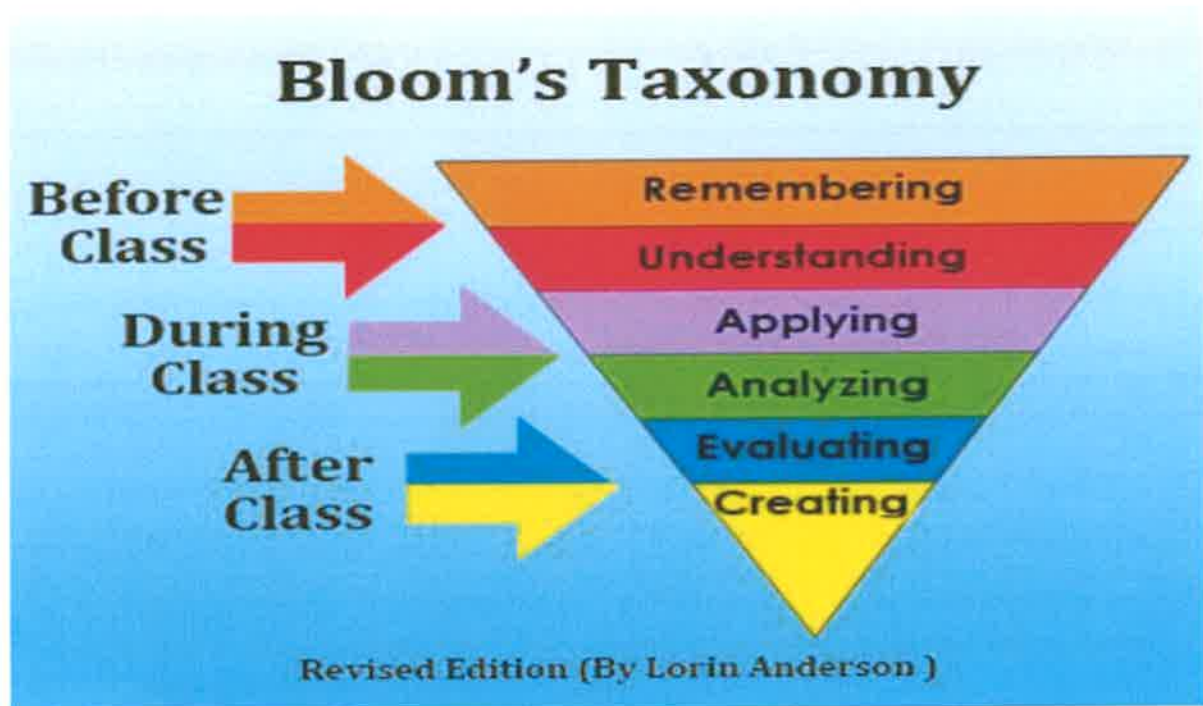

3.Dr. M V .Naresh, Associate Dean, Academics, KLEF.

Day-3 session was handled by Dr. M V .Naresh, Associate Dean, Academics, KLEF. He explained the important aspects of the Objective Based Education, about Programme Educational Objectives (PEOs), Programme Outcomes (Pos), Graduate Attributes (GAs), Programme Specific Outcomes (PSOs), Course Outcomes (COs). He explained the Blooms Taxonomy and different levels such as Level I Remembering, Level 2 Understanding, Level 3 Applying, Level 4 Analysing, Level 5 Evaluating and Level 6 Creating. Dr. Atmaram Shelke, Dy. Director (Administration), SLS Pune, explained drafting multiple choice question paper and different types of question which can be incorporated in multiple choice questions.

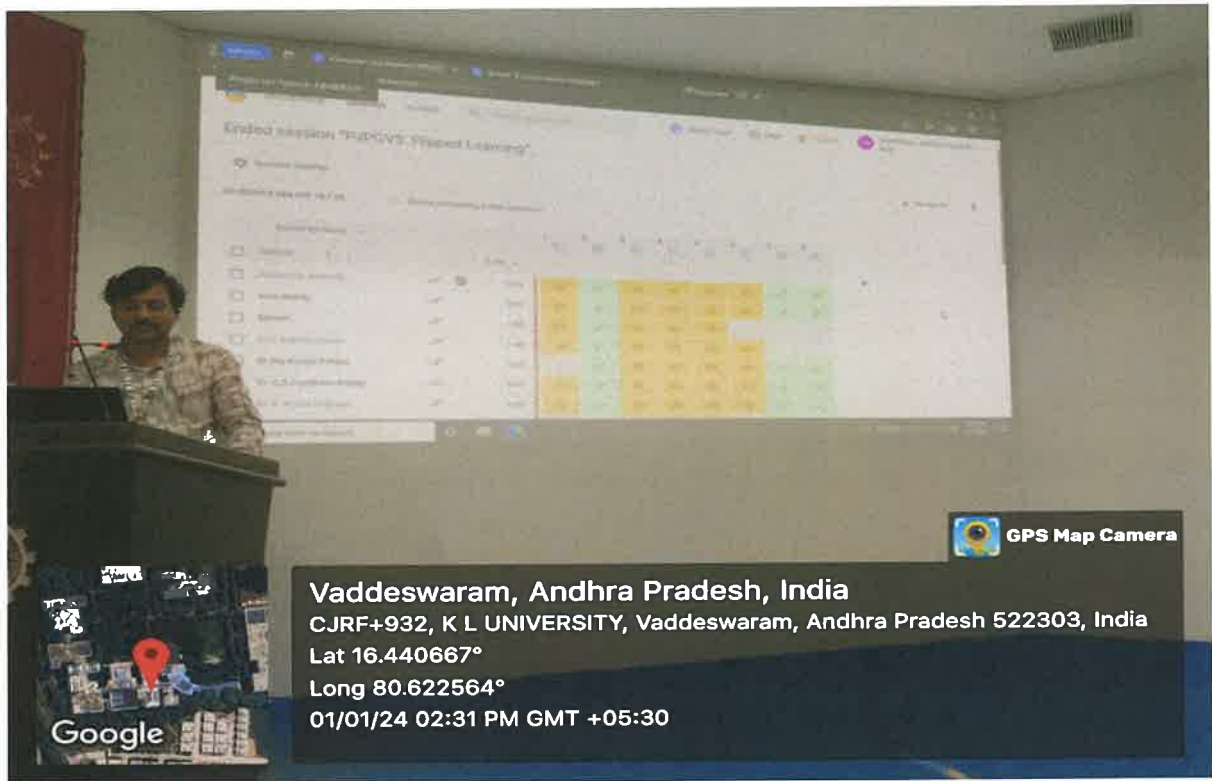

Fitting with the revised Bloom's Taxonomy

In traditional learning, lower level of learning such as remembering and understanding is happening in class, while students are usually left to work on activities that involve higher level of learning outside of classroom. However, in the flipped classroom model, learning is flipped. As you can see from the

pyramid, students can finish the lower level of cognitive work before class. And when they come to class, they can engage in higher cognitive levels of learning with peers and teacher present.

Dr.M. V. Naresh addressing the participants
