## Report on

# Two- day FDP on “Education 4.0: Navigating Towards Future Abilities”

### (29-03-2024 & 30-03-2024)

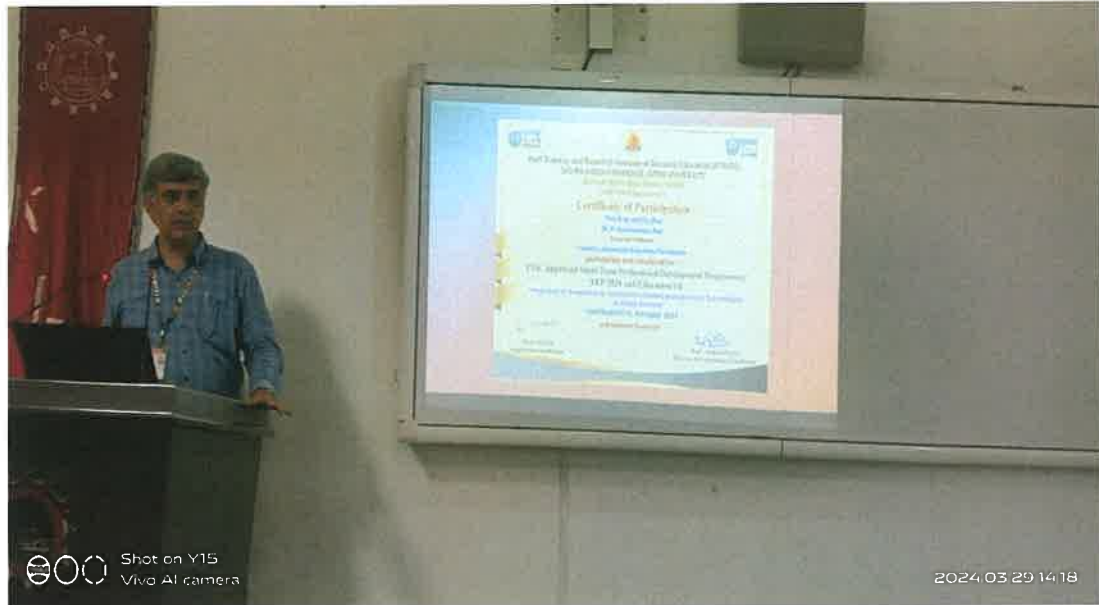

Education 4.0 is a contemporary approach to education that is in sync with the requirements and prospects of Industry 4.0. The primary aim of this approach is to equip learners with essential skills and competencies such as creativity, critical thinking, collaboration, communication, and digital literacy, to prepare them for the future. Education 4.0 achieves this by adopting cutting-edge technology and innovative teaching techniques, resulting in a tailored, hands-on, and student-focused learning journey. Keeping in view of the importance of Education 4.0, a two-day Faculty Development Program on “**Education 4.0: Navigating Towards Future Abilities**” has been organized by Academic Staff College, KLEF from 29-03-2024 to 30-03-2024.

#### Schedule of the Program:

S.No	Name of the Resource person	Scheduled Date & time	Venue	Topics Covered
1.	Dr.P.Venkateswara Rao, Associate Professor, Department of CSE-H.	29 <sup>th</sup> and 30 <sup>th</sup> March, 2024, 2 PM -5 PM	Sunflower Hall	Digital Literacy and Skills Development, Personalized Learning and Technology Integration in Education.
2.	Dr.N.Prabakaran, Associate Professor, ECE.	29 <sup>th</sup> and 30 <sup>th</sup> March, 2024,	Sunflower Hall	Data-Driven Decision Making, Collaborative Learning and Communication and Flexible

### **Day-1 & Session-I: Dr.P.Venkateswara Rao, Associate Professor, Department of CSE-H**

Dr. Venkateswara Rao emphasized that one way Education 4.0 is revolutionizing the learning process is through online and blended learning. Digital platforms and tools support online and blended learning, which mixes face-to-face and online training. This enables learners to access information, communicate with teachers and classmates, and engage in immersive and tailored learning experiences anytime, anywhere. Various technologies, including learning management systems, e-learning platforms, educational applications, gamified learning, virtual reality, augmented reality, and mixed reality, enable and enhance online and blended learning.

**Dr.P.Venkateswara Rao, Assoc. Professor, CSE addressing on personalized learning**

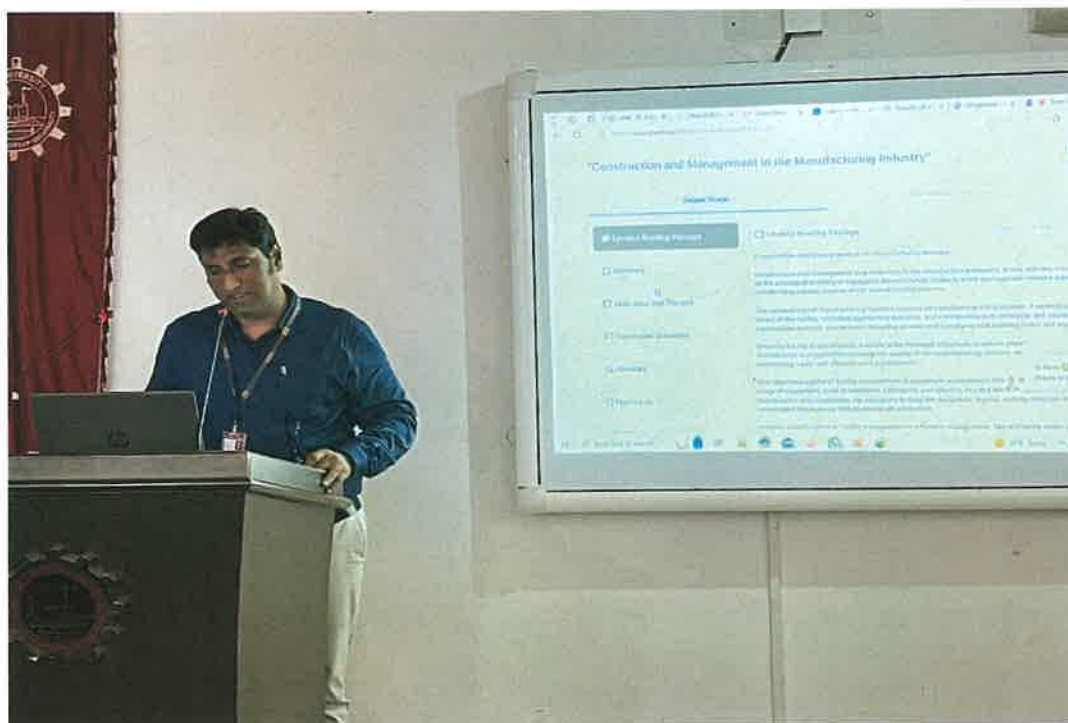

### **Day-1 & Session-II: Dr.N.Prabakaran, Associate Professor, ECE**

Dr. Prabhakaran continued the session by emphasizing that data and analytics play a crucial role in Education 4.0. Educators leverage data and analytics to monitor and improve learning outcomes. By collecting and evaluating data about learners' performances, behaviour, and needs, educators may give individualised assistance and interventions. Learning analytics, artificial intelligence, machine learning, and natural language processing are some of the technologies supporting data and analytics in education.

### **Day-2 & Session-I: Dr.N.Prabakaran, Associate Professor, ECE**

Dr. Prabhakaran explained that Education 4.0 also utilizes digital twins, which are virtual replicas of physical processes, systems, or environments. These replicas enable simulation, experimentation, and optimization in a safe and controlled environment. For instance, learners can use digital twins to explore and manipulate complex phenomena, such as climate change, natural disasters, or human anatomy, allowing them to test hypotheses and solutions effectively.

**Dr. Prabhakaran, Associate Professor, ECE Addressing the participants on collaborative learning**

### **Day-2 & Session-II: Dr.P.Venkateswara Rao, Associate Professor, Department of CSE-H**

Dr. Venkateswara Rao continued the session by explaining that Education 4.0 is a modern approach to learning that is oriented on educating learners with the skills and information

essential for success in the fast-expanding world of Industry 4.0. This is done through a combination of online and blended learning, data analytics, digital twins, and smart gadgets. By bringing together these strong technologies, Education 4.0 helps learners to thrive both today and future. It is a forward-looking strategy that equips learners with the skills they need to flourish in a world that is always evolving.

**Dr.P.Venkateswara Rao speaking on technology integration in education**

The session also covered preparing presentations by using AI tools, Gamma app, online document translation tools like anuvadini.aicte-india.

The two-day FDP ended with closing remarks by Dr. I. Govardhani, Principal, Academic Staff College. 64 faculty from various engineering and MHS departments have attended the program with much interest.
