Report on
"Awareness program on Early Detection of Student Psychological Challenges"

Date: 29-04-2024 (Monday)

Time: 2.00PM to 5.00PM

Venue: ERLT Lab L414 Library Building.

Resource Person:

Dr. Pavan Kumar Bada, Asst.Prof. Value Education Cell, KLEF

In the modern society, the majority of young people, particularly students, struggle with behavioral or mental health issues. The three facets of mental health include psychological, social, and emotional well-being. Being aware of psychosocial wellbeing is essential to spotting mental health problems in students early on. In this context, Academic Staff College, KLEF, has conducted an awareness campaign on "Early Detection of Student Psychological Challenges" on 29-04-2024 for the newly joined faculty of various departments.

The program commenced at 2.00 P.M with the opening remarks by Mrs. CH.Manjusha of Academic Staff College. She said that attending such sessions would be of great importance to the faculty as they deal with lot of students every day. Identifying psychological challenges of the students as a teacher as well as a mentor and counseling them in a proper manner would really help the students come out of their anxieties.

The resource person, Dr. B. Pavan Kumar, Asst. Professor, Value Education Cell, KLEF said that KLEF has a separate wing for conducting psychological counseling to students in order to help them come out of the challenges they face. The Value Education Cell (VEC), works with the following objectives:

- Educate students about common mental health challenges.
- Train teachers to recognize signs of psychological distress in students.
- Provide resources and support networks for students in need of assistance.

- Reduce stigma surrounding mental health issues.

Resource person introduction by Mrs.Manjusha, ASC

Dr. B. Pavan Kumar, VEC, addressing the participants on student psychological issues

Dr. Pavan Kumar also continued saying the following are important for the early detection of student psychological challenges,

Continued Education: Regular workshops and training sessions should be conducted to ensure that knowledge about mental health remains current and relevant.
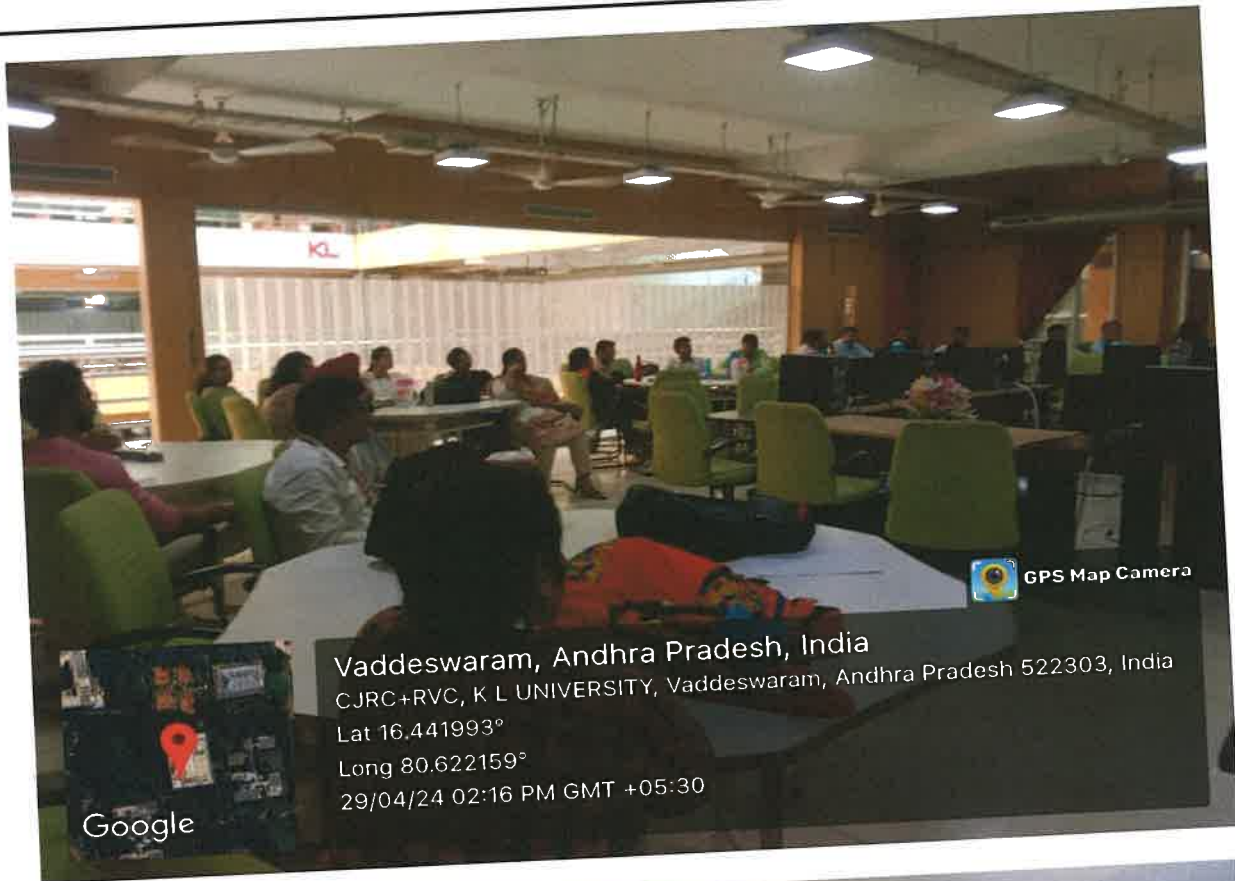

Community Engagement: Expand the program to involve broader community stakeholders, including local health authorities and community organizations, to further support students' mental health needs.

Long-Term Monitoring: Implement mechanisms for long-term monitoring and evaluation to assess the sustained impact of the program on students' mental health outcomes.

He also addressed the faculty on student well-being, identifying suicidal tendency among students, coping with pressure, learning disabilities, behavioral issues, periodic counseling, emotional intelligence, self-awareness and seeking help.

36 newly joined faculty members from various departments have attended the program with lot of enthusiasm.
