Welcome address by Dr. Govardhani, Principal, Academic Staff College (ASC)

The Academic Staff College (ASC) of Koneru Lakshmaiah Education Foundation (KLEF) has Conducted a Three-day Training Program on **ERP Modules for all teaching faculty members** of KLEF Vaddeswaram campus from 21-10-2024(Monday), 25-10-2024(Friday), and 26-10-2024(Saturday).

The FDP Conducted Exclusively for highlighting the diverse features encapsulated with in the ERP to the all-teaching faculty. The program offered insightful exposure to ERP systems, its significance especially in catering to the needs of ranking and accreditation processes, by detailing the modules relevance and practical application within the broader educational landscape. Focusing on elevating the comprehension and proficiency participating faculty in effectively utilizing the Employee profile module to enrich the strategic alignment with accreditation processes, the program included hands- on exercises, to enable a clear understanding of the functionalities and seamless usage embedded within the module.

Resource person Dr. B.T.P Madhav, Additional Dean (R&D), KLEF.

Day-1 (21-10-2024):

Session was handled by Dr. B.T.P Madhav, Additional Dean (R&D), KLEF, which covered how faculty can create their research profile in ERP, various tabs in research profile were clearly explained Research policy of the institute was also explained.

1.Enter Personal and Academic Information: Faculty members are required to enter their basic details (such as name, department, qualifications, research interests, etc.) in the system. This forms the basis of their academic profile.

2. Add Research Projects: The ERP system typically allows faculty to input details about their ongoing or completed research projects. This might include:

- Title of the project
- Project description
- Research objectives

- Funding sources
- Collaborators (both internal and external)

3.Document Publications: Faculty can upload and maintain a record of their academic publications. This may include:

- Journal articles
- Conference papers
- Books or book chapters
- Other scholarly articles
- Citation details (DOIs, publication year, volume, etc.)

The system may also allow integration with citation databases (e.g., IEEE, Scopus) to auto-fill citation counts and references.

4.Update Patents, Innovations, and Research Impact: Many ERP systems allow faculty to record patents or innovations resulting from their research. This section typically includes:

- Patent titles
- Inventor(s)
- Filing dates
- Patent numbers

Additionally, faculty members can track the impact of their research, including awards, recognitions, or media coverage.

Conclusion:

Dr. Madhav's guidance on creating a research profile in the ERP system would have emphasized the importance of maintaining an organized, up-to-date record of one's academic and research activities. This can help streamline research administration, enhance visibility, and ensure faculty members' contributions are properly recognized by the institution and the wider academic community.

Topic Covered: Course handouts, Question paper setting, vetting, etc.

Resource person Dr.B. Chaitanya Krishna, Assoc. Dean (Academics), KLEF.

Day-2,(25-10-2024.):

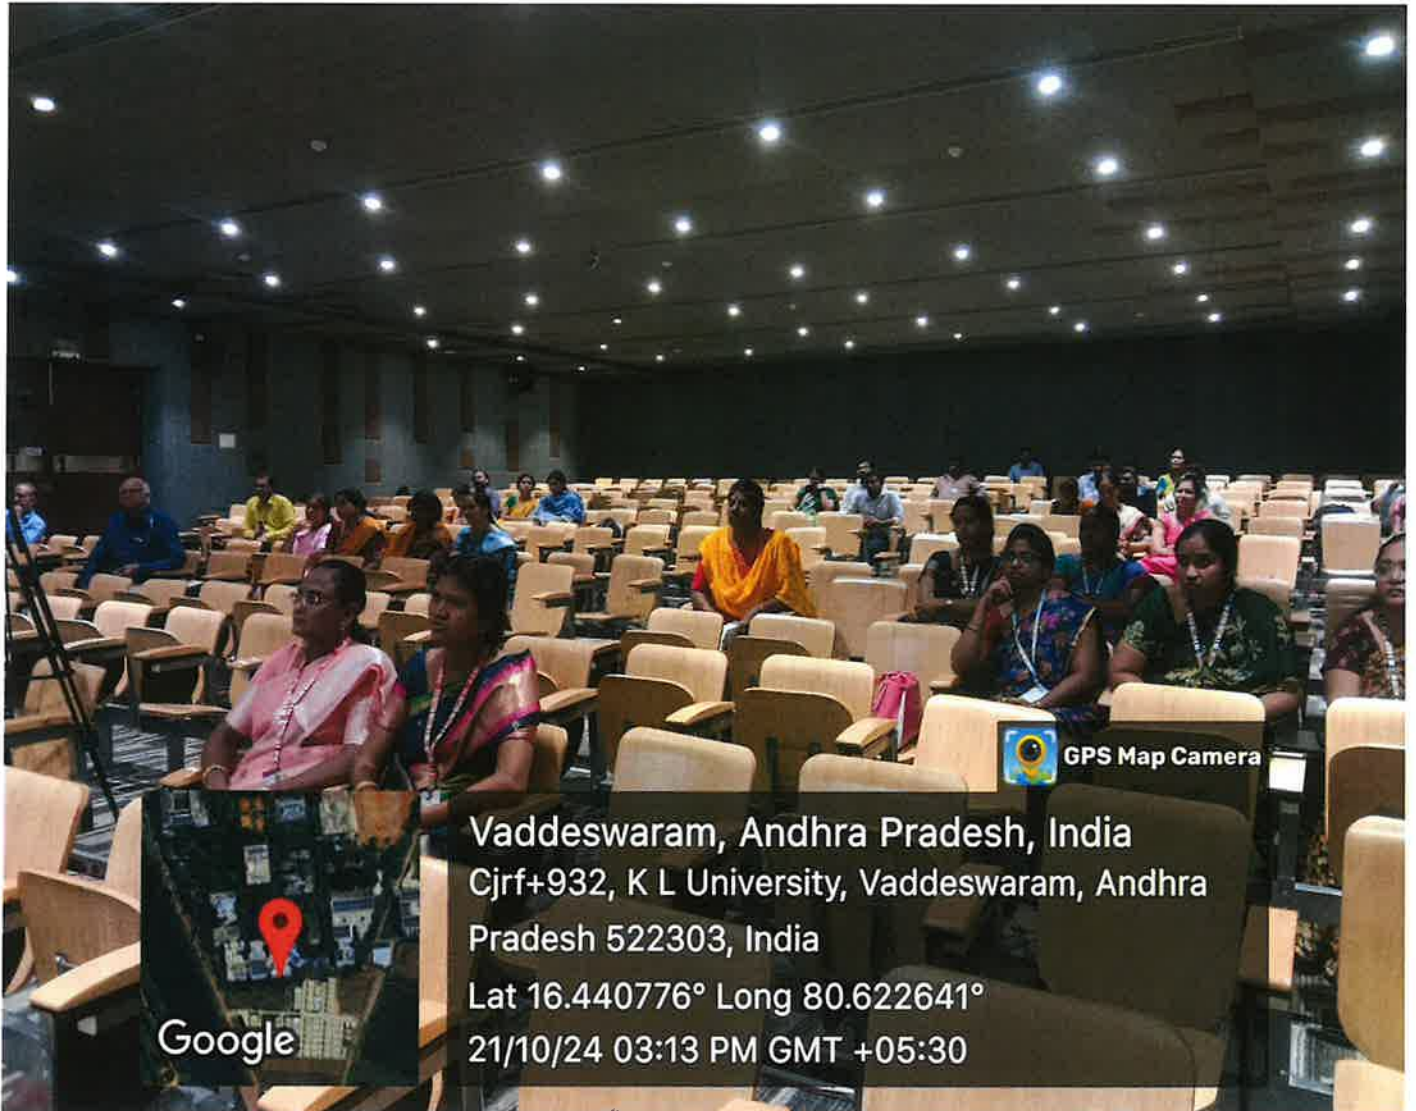

The Session was handled by Dr.B. Chaitanya Krishna, Assoc. Dean (Academics), KLEF. The Session covered Preparation of course handouts, quality question papers in line with outcome-based education (OBE), vetting process of question papers as per Bloom's taxonomy levels.

Course Handouts: Course handouts are essential materials for guiding students through the course. These documents help set expectations, provide additional reading, and outline key learning objectives.

- **Course Outline:** Overview of what will be covered, including the topics, dates, and structure.
- **Learning Objectives:** Clearly state what students are expected to learn by the end of the course.
- **Reading Materials:** A list of textbooks, articles, online resources, and any other required readings.
- **Assessment Methods:** Information on assignments, exams, presentations, or projects, including grading rubrics.

Vetting of Question Papers:

Vetting refers to reviewing and approving question papers before they are finalized. This process ensures fairness, clarity, and alignment with the course objectives.

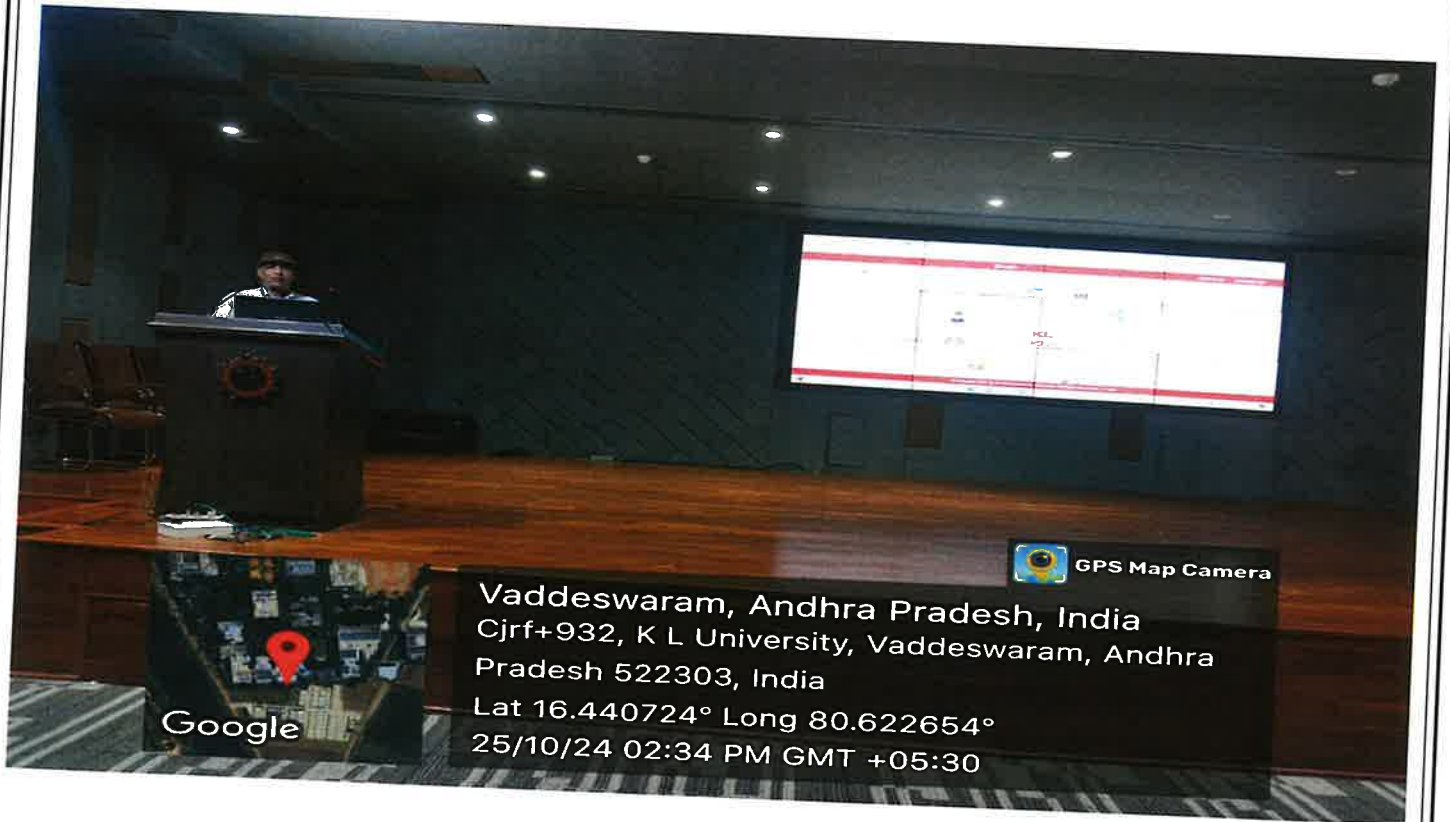

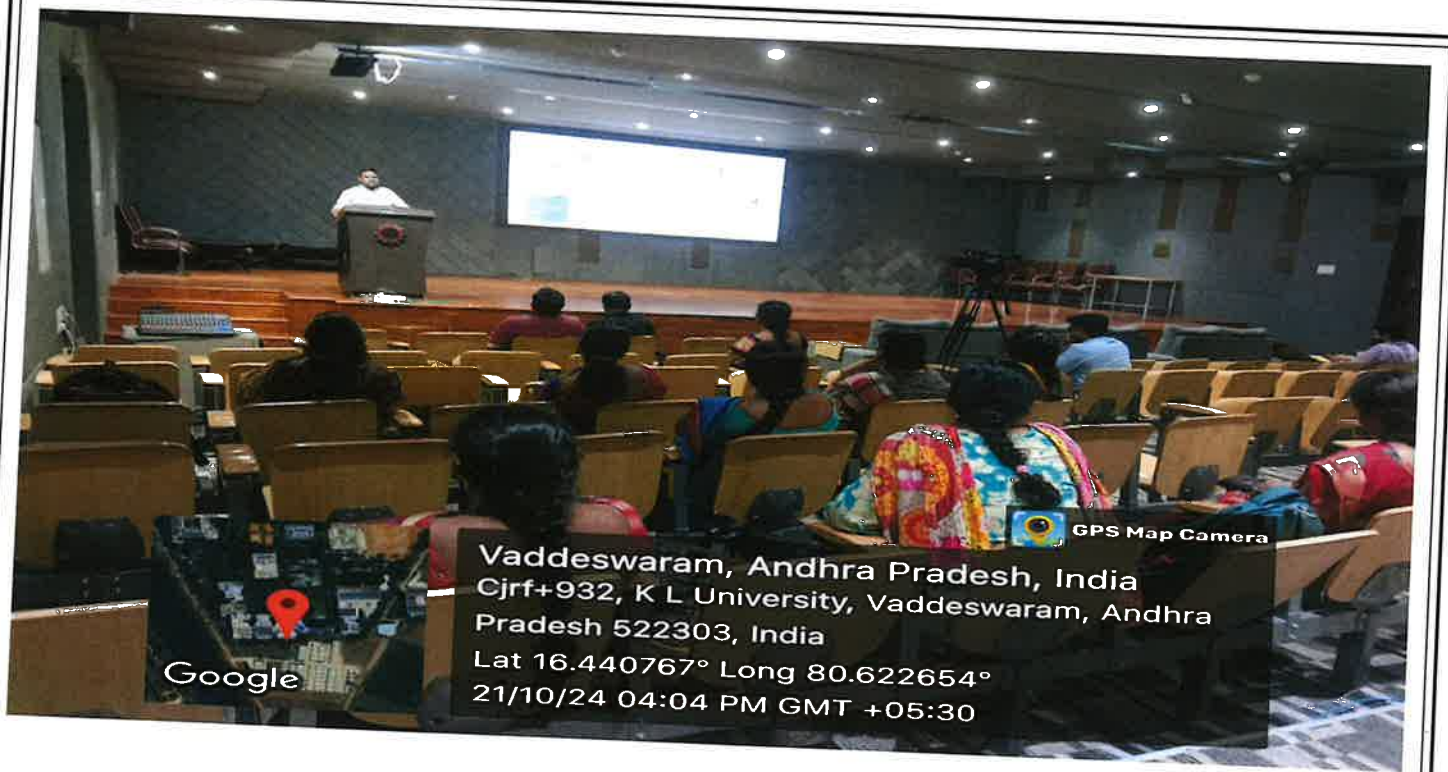

Participants at the program.

Program Outcomes:

The Faculty Development Program on Outcome-based Education yielded several positive outcomes:

- Faculty members gained a deeper understanding of OBE principals, learning outcomes, and their importance in education.
- Participants were able to redesign their course content and clarity in learning objectives.
- Faculty members developed effective assessment methods and tools to measure the attainment of learning outcomes.
- The program promoted collaboration among faculty members, fostering a culture of sharing best practices and ideas related to OBE.

Day-3, (26-10-2024): Session was Continued by **Dr. P. Pardha saradha**, Assoc. Dean (R&D), spoke to the faculty about the Significance of establishing a personal research profile and the process for uploading various research -related endeavors such as journal publications. Articles, book chapters, patents, sponsored projects, consultancy, and funding projects into the ERP. He provided a comprehensive overview of the research tab fields in ERP and highlighted the institutes research policy.

Participants listening to the lecture.

Participants at the program.

Conclusion:

The Training program on ERP Modules for all teaching faculty members

Outcome-based education (OBE) emphasizes achieving specific learning outcomes, and aligning assessments with Bloom's Taxonomy ensures that question papers are designed to assess a range of cognitive skills from basic recall to higher-order thinking. By using this framework, educators can create more structured, meaningful assessments that accurately measure students' depth of understanding and critical thinking. Ultimately, a well-vetted question paper not only aligns with OBE principles but also supports a holistic approach to learning.
