Subject: Fw: Visit of Professor of Practice Mr. Sai Satish, CEO-Indian Servers, to conduct Hands On Training for Cohort E09 faculty on the Course Digital Forensics[22CSB3304] in association with Academic Staff College at KLEF-Reg.

Dear Sir,
As per the list, 4 faculty are listed from CSIT Dept, but this is to inform that -
Mr N Rajender, 7832 - Sir is on leave today and tomorrow and went to his native place.
Mrs G Komali, 8095 - Madam is in Cohort E27 and not in E09.

This is to request your good office to please consider the above issues and for needful.

Thanks & Regards,
Dr K Amarendra.

Report on Hands On Training on the Course Digital Forensics[22CSB3304] for the faculty members of E09 Cohort of KLEF.

Resource Person : Mr. Sai Satish, CEO-Indian Servers

Date : 13/12/2024

Venue : Sunflower Hall

Timings : 9:30 AM to 12:30 PM

2:00 PM to 5:00 PM

The hands-on training session on Digital Forensics (Course Code: 22CSB3304) for the faculty members of the E09 Cohort of KLEF (KL Deemed to be University) was held on the 13-12-2024. The session was organized by the Department of Computer Science and Engineering (CSE) in collaboration with the Academic Staff College (ASC). This event was part of the Professor of Practice initiative aimed at enhancing the faculty's expertise in contemporary technological areas, specifically in the rapidly evolving field of Digital Forensics.

The primary objective of the training was to provide faculty members with practical insights and hands-on experience in the field of Digital Forensics. As digital crime and cyberattacks become more sophisticated, the importance of understanding digital forensics, tools, and techniques has grown tremendously.

The session was conducted by Mr. Sai Satish, the CEO of Indian Servers, who is a well-known expert in the field of cybersecurity and digital forensics. With years of experience in handling complex digital investigations, Mr. Satish brought in-depth knowledge and practical skills to the session. His experience in the industry and hands-on approach made the training engaging and insightful for the participants.

Resource person, Mr. Sai Satish, CEO-Indian Servers addressing the faculty members

The training program was structured in a way that blended theoretical understanding with practical exposure. Mr. Sai Satish began with a brief overview of Digital Forensics, covering its relevance and importance in today's world. He explained how digital forensics helps in uncovering digital crimes and preserving digital evidence for legal purposes. The session moved on to introduce the different forensic tools used to investigate digital crimes. Various software platforms used in forensics, such as EnCase, FTK Imager, and Autopsy, were discussed.

The participants were shown how to use these tools effectively to recover deleted files, analyze disk images, and trace suspicious activities. One of the critical aspects of digital forensics is the proper handling and preservation of digital evidence. Mr. Satish emphasized the importance of maintaining the chain of custody for digital evidence and demonstrated how to create forensically sound copies of digital devices. The session also covered the legal and ethical aspects of digital forensics. Mr. Satish discussed the importance of adhering to legal protocols while collecting evidence and ensuring privacy and data protection during forensic investigations.

Towards the end of the session, Mr. Satish opened the floor for a Q&A session where faculty members clarified doubts and discussed real-life cases and scenarios. This interactive session provided deeper insights into the application of digital forensics in different contexts, such as corporate investigations, cybercrimes, and law enforcement.

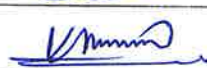

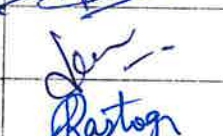

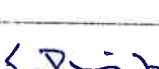

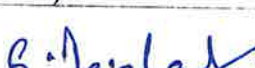

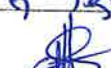

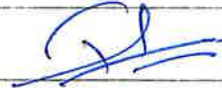

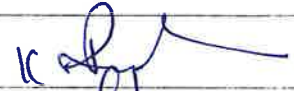

The Hands-On Training on Digital Forensics provided an excellent opportunity for the faculty members to gain practical skills in an increasingly important field. With digital crime on the rise, equipping educators with the knowledge and tools to understand and teach digital forensics is critical. The training successfully met its objectives, providing the participants with a comprehensive understanding of forensic investigation techniques and tools, as well as the legal and ethical considerations involved.
