Day 2: 20-08-2024

Ideation and Brainstorming Techniques:

Day 2 centered on ideation techniques, where faculty members explored various brainstorming methods to generate creative ideas. The session included hands on mind mapping, SCAMPER (Substitute, Combine, Adapt, Modify, Put to another use, Eliminate, and Reverse), and other ideation tools that can be used in classroom settings to encourage student participation.

Hands-on activity: Ideation sessions focusing on innovative teaching methods and classroom engagement strategies. Participants presented their ideas for feedback and refinement.

Session by Dr.K. Sireesha from DTI department.

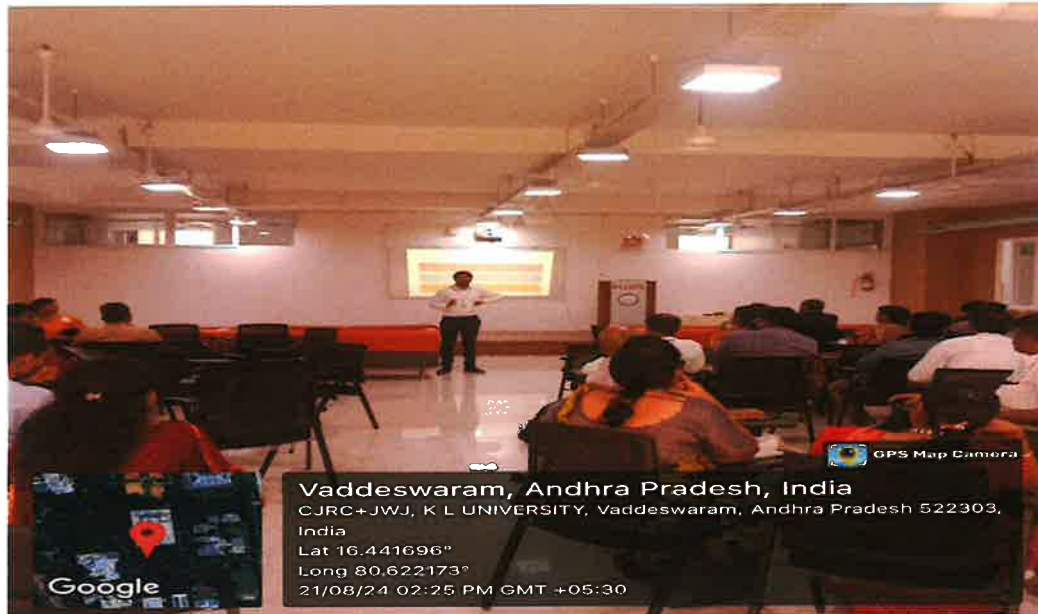

Impact and Benefits:

The session concluded with a discussion on sustaining innovation in education and how faculty can continue to evolve their teaching approaches using the principles of design thinking.

Key Takeaways:

- **Human-Centered Design:** The program emphasized the importance of understanding user needs and preferences. By empathizing with users, participants learned to identify unmet needs and design solutions that truly resonate with them.
- **Iterative Process:** Design thinking follows an iterative process, involving ideation, prototyping, testing, and refinement. This approach allows for continuous improvement and ensures that solutions are aligned with user needs.
- **Collaboration and Teamwork:** Design thinking fosters collaboration and teamwork. By working together, participants were able to leverage diverse perspectives and generate more innovative ideas.
- **Problem-Solving Techniques:** The program introduced various problem-solving techniques, such as brainstorming, mind mapping, and design sprints. These tools helped participants generate new ideas and develop creative solutions.

Feedback: Feedback from the participants was overwhelmingly positive, highlighting the interactive nature of the sessions and the practical insights gained. Many appreciated the opportunity to collaborate with peers and experts, which fostered a sense of community and shared purpose among the newly joined faculty.

Conclusion: The FDP on "Design Thinking and Innovation" was a significant step towards empowering educators with the tools to innovate in their teaching methodologies.
