Gist of the presentation:

Dr. Prof. (Dr.) Muruganantham Ponnusamy recalled his first visit KLEF during 2018. He said he visited KLEF and interacted with peers on OBE implementation. He thanked the senior administration for being cooperative and resourceful during the same visit. He also informed the audience that Dr. A. Aravindan was his colleague for over a decade at the Autonomous Institute at Kerals. Outcome Based Education (OBE) is student/learner centric. First the required outcomes/attributes are listed and then it focusses on training the students for those outcomes. Outcome-based education requires outcome-based curriculum, outcome-based teaching/training, and outcome-based assessment. Outcome-based curriculum involves designing the curriculum based on the expected outcomes (Course and Program outcomes). Outcome-based teaching involves designing the course delivery to evoke the required outcomes.

He asked the faculty to be empathetic toward students and asked them to ensure that the students do not deviate from the learning process. Innovative ideas would come from the students if the faculty were empathetic towards them. All students leaving the Institute shall 'live' happily.
