Faculty list for PoP on 07.07.2025.docx;

Ref: KLEF/RO/Alumni Relations/2025-26

Date: 05-07-2025

Orders of the Hon'ble Vice-Chancellor dt. 05-07-2025

CIRCULAR

Sub: Hands on training on "**CYBER SECURITY**" by Alumni Relations in association with Academic Staff College - Reg.

Ref: Letter from Dr. K.Ch. Sri Kavya, Director (Alumni Relations).

This is to inform all faculty of KLEF that as part of Professor of Practice Program, Alumni Relations in association with Academic Staff College is conduction hands on training on "**CYBER SECURITY**" as per the details given below.

Mr. Sai Satish, CEO-Indian Servers, will be visiting KLEF to conduct the program for faculty members of Cohort E09.

Date : 07/07/25

Venue : Rose Hall

Time : 9:30 AM To 12.30 PM
1.30 PM To 4.30 PM.

All Cohort E09 Faculty of Cyber security, Cryptography and Deep Learning are directed to attend the program without fail.

Heads of Departments – School of Computing are directed to encourage the faculty members to participate and grab the benefit from the program.

**Report on
One-Day Hands on training
on
“CYBER SECURITY”
(for faculty members of Cohort E09 as part of Professor of Practice Program)**

Organized by: Academic Staff College, KLEF.

Date: 07-07-2025

Time: 9:30 AM To 12.30 PM and 1.30 PM To 4.30 PM.

Venue: Rose Hall, C-Block, KLEF.

Resource Person:

- Mr. Sai Satish, CEO-Indian Servers.

The Academic Staff College (ASC), KLEF, organized a One-Day Hands-on Training Program on “Cyber Security” for the faculty members of Cohort E09 as part of the Professor of Practice (PoP) Program. The training was conducted on 07th July 2025 with the objective of enhancing cybersecurity awareness and practical understanding among faculty members in the context of academic and professional digital environments.

In the present digital era, educational institutions increasingly rely on online platforms, enterprise systems, and cloud-based resources for teaching, learning, and administration. This growing dependence has also increased exposure to cyber threats. Recognizing the need to equip faculty members with essential cybersecurity knowledge and hands-on skills, this program was designed to address both conceptual and practical aspects of cyber security.

The primary objectives of the training program were to:

- Create awareness about emerging cyber threats and security vulnerabilities
- Provide hands-on exposure to basic cybersecurity tools and techniques

- Educate faculty members on safe digital practices in academic environments
- Strengthen understanding of data security, privacy, and cyber ethics
- Enable faculty to identify, prevent, and respond to cyber incidents

Resource person Mr. Sai Satish demonstrating the session

The training sessions were conducted by **Mr. Sai Satish**, CEO of **Indian Servers**, who has extensive industry experience in the areas of cybersecurity, network security, ethical hacking, and digital risk management. His practical exposure to real-world cyber incidents and enterprise security solutions added significant value to the program.

The training program was structured into two intensive hands-on sessions, covering both theoretical foundations and practical demonstrations.

Session I (9:30 AM – 12:30 PM): Fundamentals of Cyber Security

The morning session focused on building a strong foundation in cybersecurity concepts. The resource person began with an overview of the current cybersecurity landscape, emphasizing the increasing frequency and sophistication of cyber-attacks targeting educational institutions and organizations.

Participants listening to the lecture.

Topics Covered:

- Introduction to cyber security and its importance
- Types of cyber threats: malware, phishing, ransomware, spyware
- Common vulnerabilities in academic and enterprise systems
- Social engineering attacks and human-factor risks
- Cyber security challenges in teaching–learning platforms and ERP systems

Real-life case studies were discussed to help participants understand how cyber-attacks occur and the consequences of security breaches.

Session II (1:30 PM – 4:30 PM): Hands-on Training and Cyber Attack Prevention

The afternoon session was dedicated to **hands-on training and live demonstrations**. Participants were introduced to practical scenarios related to cyber-attacks and defensive mechanisms.

Topics Covered:

- Basics of network security and system protection

- Password security and authentication mechanisms

Hands on practice session

- Demonstration of phishing attacks and detection techniques
- Secure browsing practices and email safety
- Data protection, backups, and recovery strategies
- Introduction to cyber laws, ethics, and compliance

The resource person demonstrated common attack techniques and explained preventive measures, enabling participants to understand both the attacker's perspective and defensive strategies.

The sessions were highly interactive, with faculty members actively participating in discussions and asking questions related to cybersecurity concerns faced in their academic and professional activities. The resource person addressed individual queries and clarified doubts related to data privacy, system security, and safe usage of digital platforms.

The hands-on approach ensured better comprehension and practical learning, making the program engaging and effective.

The feedback received from participants was highly positive. Faculty members appreciated the practical orientation, real-world examples, and hands-on demonstrations provided during the sessions. The program was found to be informative, relevant, and useful in strengthening cybersecurity awareness.

The training program successfully met its objectives by enhancing cybersecurity awareness and practical skills among faculty members of Cohort E09. The program contributed significantly to building a cybersecurity-conscious academic environment and reinforced the importance of safe digital practices in higher education institutions.

Dr. I. Govardhani,
Principal, Academic Staff College.
