Accuracy in the pursuit of excellence will come by avoiding unethical practices, and by maintaining the highest standards of integrity and quality.

He asked the participants to have a small groups discussion and make a list of “potential malpractices” by students.

Dr. Anand Samuel held a discussion on what is a disciplinary action and why and when would this be needed.

He stressed on the need for confidentiality keeping some info anonymous and information security within the office walls and institution boundaries.

In the second half after the lunch, Dr. Samuel conducted a group activity through a brainstorming session by small groups of faculty members to make a list of possible violations that their employees these administrators deal with.
