#### Orientation lecture on “SWEAR Analysis”

The student success is promoted by helping them through SWEAR with:

- Mental health and life concerns
- Learning and academic skills challenges
- Career uncertainty
- Faculty/staff - student communication

The SWEAR analysis format is available online to help the students do the SWEAR analysis on their own based on certain aspects like academic, career, skill set and any other needs of the students. It helps the students to choose their right career paths depending upon availability and their aptitude.

The resource person explained the whole process involved to all the faculty members of engineering departments.
