

FDP on Industrial application of Metrology

Organized by

Academic Staff College, KLEF

25-06-21 To 27-06-21

Academic Staff College of KLEF organized a FDP on “**Industrial application of Metrology**”

The workshop aimed to educate registered faculty members from all departments about the significance of metrology in industrial settings.

Metrology, the science of measurement, plays a critical role in ensuring the quality and precision of manufactured products across various industries. Dr. S. Hari likely delved into topics such as the principles of metrology, different measurement techniques, and their applications in industries ranging from manufacturing to healthcare.

Overall, the workshop provided a platform for faculty members to deepen their understanding of metrology's industrial applications, fostering collaboration and knowledge exchange across departments within the institution.

Resource Persons: **Dr S Hari**
