CIRCULAR

Sub: National Level Seminar on "Involvement of Women & Girls in Science" - Reg.
Ref: Letter dated 13.02.2023 from Dr.Ch. Hanumantha Rao, Dean (Student Affairs).

This is to inform all Women Faculty, Staff and Girl Students of KLEF that a National Level Seminar is being organized by Women Development Cell on "Involvement of Women & Girls in Science" on 14/02/2023 from 11:00 a.m. to 12:30 p.m. in Jasmine Hall. Details of resource person are mentioned below.

Resource Person

K. Usha Rani,
Retd Manager,
Indian Bank.

Program Coordinators:

1. Mrs. Satya,
Coordinator,
Women Development Cell,
KLEF
Contact No. 7989015030
2. Dr. S. Poojitha,
Coordinator,
Women Development Cell, KLEF
Contact No. 9948741986.

For further information and any queries related to this event the above mentioned Program Coordinators may be contacted.

NATIONAL LEVEL SEMINAR ON INVOLVEMENT OF WOMEN & GIRLS IN SCIENCE

Date : 14/02/2023
Time : 11.30 A.M to 12:30 Noon
Venue : Jasmine Hall, KLEF

OBJECTIVES

The primary objective of organizing a national-level seminar on the involvement of women and girls in science is to promote gender diversity and inclusivity in the field of science. This event aims to raise awareness about the underrepresentation of women and girls in scientific disciplines and provide a platform for discussions, knowledge sharing, and the exchange of ideas on strategies to empower and encourage their active participation in science-related fields. By fostering a supportive environment and showcasing the achievements of women and girls in science, this seminar seeks to inspire, mentor, and create opportunities for them to pursue and excel in STEM (Science, Technology, Engineering, and Mathematics) careers, ultimately contributing to the advancement of science and innovation.

DESCRIPTION

KLEF Women Development Cell (WDC) On the occasion of International Day of Women & Girls in Science on 11th February, 2023 organized a National Seminar on "Involvement of Women & Girls in Science" at Jasmine Hall on Feb, 14th, 2023. Mrs. K. Usha Rani, , Retd. Manager, Indian Bank was invited as a resource person. This program is organized in collaboration with an NGO called as SAFE. Resource person enlighten the participants by discussing all the point said above and participants also actively participated to this event. The following aspects were discussed

This year, the International Day of Women and Girls in Science (IDWGIS) will focus on the role of Women and Girls and Science as relates to the Sustainable Development Goals(SDGs) in review at the forthcoming High-Level Political Forum (HLPF), namely SDG 6 (clean water and sanitation), SDG 7 (affordable and clean energy), SDG 9 (industry, innovation, and infrastructure), SDG 11 (sustainable cities and communities) and SDG17 (means of implementation), while following up on discussions on water held during from the "Water Unites Us" 7th IDWGIS, the 2nd High-Level International Conference on the International Decade for Action on Water for Sustainable Development 2018-2028, held in Dushanbe, and the 2nd UN Ocean Conference and its High-Level Symposium on Water held in Lisbon, as a contribution for the 2023 UN Water Conference, and other UN Fora. In doing so the IDWGIS aims to connect the International Community to Women and Girls in Science, strengthening the ties between science, policy, and society for strategies oriented towards the future. The IDWGIS will thus showcase best practices, strategies, applied solutions in addressing SDGs challenges and opportunities. It will also include for the first time a science workshop for Blind Girls and a session from the BLIND fellow SCIENTISTS on "Science in Braille: Making Science Accessible". A significant gender gap has persisted throughout the years at all levels of science, technology, engineering and mathematics (STEM) disciplines all over the world. Even though women have made

tremendous progress towards increasing their participation in higher education, they are still under-represented in these fields. Gender equality has always been a core issue for the United Nations. Gender equality and the empowerment of women and girls will make a crucial contribution not only to economic development of the world, but to progress across all the goals and targets of the 2030 Agenda for Sustainable Development, as well. On 14 March 2011, the Commission on the Status of Women adopted a report at its fiftyfifth session, with agreed conclusions on access and participation of women and girls in education, training and science and technology, and for the promotion of women's equal access to full employment and decent work. On 20 December 2013, the General Assembly

OUTCOMES

The outcomes of organizing the awareness program on hypertension for women have been highly positive and transformative. Participants emerged with increased awareness about hypertension, its risk factors, and the importance of preventive measures and regular blood pressure monitoring. The program successfully empowered women to take proactive steps towards managing their cardiovascular health, leading to improved overall well-being. Furthermore, it inspired participants to become advocates for healthier lifestyles within their families and communities, creating a ripple effect of positive change. By fostering a culture of health consciousness and preventive action, the program has contributed significantly to reducing hypertension-related health risks among women, ultimately enhancing their quality of life and promoting a healthier society.
