### **AWARENESS PROGRAM ON HYPERTENSION FOR WOMEN**

**Date:** 15/07/2023

**Time:** 10.00 A.M to 12:30 Noon

**Venue:** Jasmine Hall, KLEF

#### **OBJECTIVES**

The primary objectives of organizing an awareness program on hypertension for women are to educate and empower them with the knowledge about hypertension, its risk factors, prevention strategies, and the importance of regular monitoring and healthy lifestyle choices. This program aims to raise awareness among women, enabling them to recognize the signs and risks of hypertension, take proactive steps to manage their blood pressure, and make informed decisions for their health. Additionally, it seeks to reduce the prevalence of hypertension-related complications among women by promoting early detection and intervention, ultimately improving their overall well-being and quality of life. By fostering health literacy and encouraging preventive measures, the program aims to empower women to take control of their cardiovascular health and inspire healthier habits within their families and communities.

#### **DESCRIPTION**

The awareness program on hypertension for women was a successful and impactful initiative. Participants engaged actively, gaining comprehensive knowledge about hypertension, its risk factors, and preventive measures. Dr. M. Rajesh, Harini hospitals is the resource person. The program successfully raised awareness among women, enabling them to recognize the importance of regular blood pressure monitoring and adopt healthier lifestyle choices. It fostered a sense of empowerment, motivating women to prioritize their cardiovascular health and inspire their families and communities to do the same. Overall, the program made a significant contribution to enhancing women's awareness and agency in managing hypertension, ultimately promoting better health outcomes and well-being among participants and beyond.

#### **OUTCOMES**

The outcomes of organizing the awareness program on hypertension for women have been highly positive and transformative. Participants emerged with increased awareness about hypertension, its risk factors, and the importance of preventive measures and regular blood

pressure monitoring. The program successfully empowered women to take proactive steps towards managing their cardiovascular health, leading to improved overall well-being. Furthermore, it inspired participants to become advocates for healthier lifestyles within their families and communities, creating a ripple effect of positive change. By fostering a culture of health consciousness and preventive action, the program has contributed significantly to reducing hypertension-related health risks among women, ultimately enhancing their quality of life and promoting a healthier society.
