Sub: National Level Webinar on Women in Science & Technology – Gender Perspective - Reg

Ref: Letter dated on 24/06/2021 from Dr. S.V. N. L Lalitha, Professor, EEE & Convener –Women's Forum

This is to inform that Women's Forum is organizing National Level Webinar on "Women in Science & Technology – Gender Perspective". The details of the program are mentioned below.

Date : 26/06/2021

Time : 11:00 A.M to 12:00 Noon

Venue : Virtual Mode, KLEF

Resource Person: Dr. Audipudi Amrutha Valli, Associate Professor, M.Sc., PhD, Department of Botany and Microbiology, Acharya Nagarjuna University.

Meeting Link:

<https://kluniversity.webex.com/kluniversity/j.php?MTID=m24d81684bc743cfea076d1b5e6e08621>

Resource Person:

Dr. Audipudi Amrutha Valli, M.Sc., PhD,
Associate Professor,
Department of Botany and Microbiology,
Acharya Nagarjuna University, Guntur

Targeted Audience: All the faculty members, Staff, research scholars, and students of KLEF both campuses can participate in the seminar.

OBJECTIVES

The primary objective of organizing a seminar in virtual mode on “Women in Science and Technology – Gender Perspective” is to promote gender equity and inclusivity in STEM (Science, Technology, Engineering, and Mathematics) fields by raising awareness about the challenges women face, celebrating the achievements of women in these areas, and fostering a supportive environment for women and girls pursuing careers in science and technology. This webinar aims to encourage dialogue, share insights, and provide actionable strategies to

address gender disparities, ultimately advancing the representation and contributions of women in science and technology, and benefiting both the individuals involved and society as a whole.

DESCRIPTION

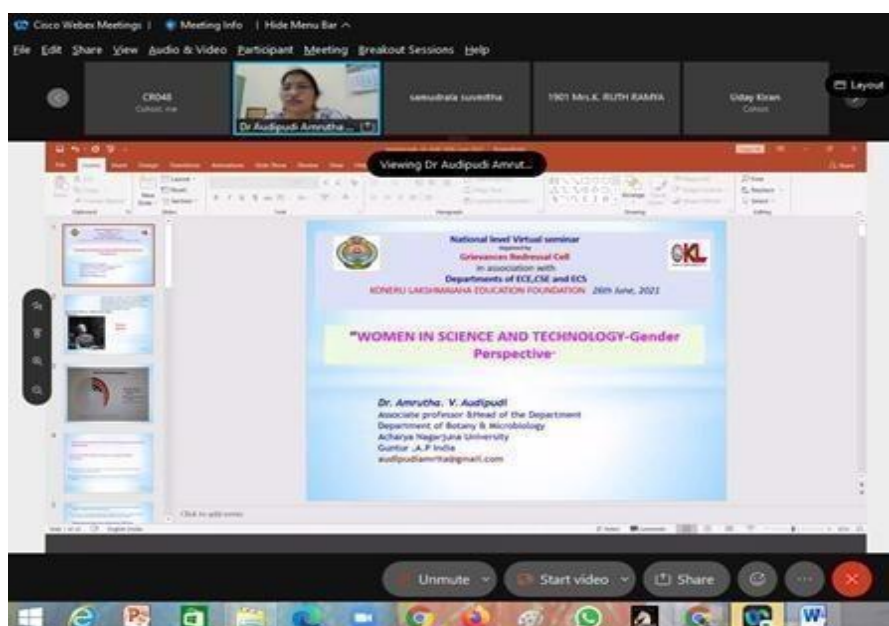

KLEF Women's Forum organized a National Level Virtual Seminar on Women in Science and Technology – Gender Perspective". The resource person to this seminar is Dr. Audipudi Amrutha Valli, Associate Professor, M.Sc., PhD, Department of Botany and Microbiology, Acharya Nagarjuna University.

Girls and women face considerable obstacles to pursuing scientific and technological studies and careers. Despite an unprecedented increase over the past thirty years in the number of women in higher education and in employment, women still occupy a very minor place in higher level scientific and technical studies and occupations. There are relatively few women in the decision-making and consultative bodies in the field of science and technology. Seeking to achieve a balanced participation of men and women in science and technology is a valid enterprise not only on moral and social grounds but also, and especially, because of the benefits which would accrue to the scientific and technical world. The introduction of diverse points of view and different priorities and styles of working as well as the input of women's skills would contribute a great deal to science. Moreover, in this way the science and technology sectors would be better adapted to social needs and would more closely reflect the interests of all members of society

OUTCOMES

The outcomes of organizing a seminar in virtual mode on "Women in Science and Technology – Gender Perspective" are manifold. Firstly, it can help raise awareness about the underrepresentation of women in STEM fields, leading to increased recognition of the need for gender diversity in these industries. Secondly, it may inspire and motivate more women and girls to pursue careers in science and technology by providing role models and valuable insights. Thirdly, the webinar can contribute to the creation of a more inclusive and supportive STEM community, fostering collaboration and mentorship among individuals of all genders. Ultimately, these outcomes work toward reducing gender disparities, promoting innovation, and harnessing the full potential of women in science and technology for the betterment of society and the advancement of these fields.
