WORKSHOP ON COMPUTER LITERACY FOR RURAL WOMEN

Date : 27/09/2018
Time : 2:00 P.M to 5.30 P.M
Venue : Jasmine Hall, KLEF

OBJECTIVES

The primary objectives of organizing a workshop on computer literacy for rural women are to empower them with essential digital skills, enhance their access to information and opportunities, bridge the digital divide, and foster economic and social empowerment. Through this workshop, we aim to provide these women with the knowledge and confidence to navigate basic computer operations, access online resources, and utilize digital tools for communication, education, and livelihood enhancement. By doing so, we hope to enable rural women to participate more actively in the modern digital world, improve their employability, and promote their overall socio-economic development.

DESCRIPTION

The workshop on computer literacy for rural women, held on 27/09/2018 in Jasmine Hall, KLEF proved to be a transformative experience. This workshop was organized by KLEF Women's Forum. With enthusiastic participants in attendance, the event successfully equipped these women with fundamental digital skills, ranging from basic computer operations to internet navigation and communication tools. Their progress was remarkable, as many who had previously never used a computer now feel confident in doing so. The workshop has not only opened new doors to information and online opportunities but has also ignited a sense of empowerment and independence among the rural women. Their eagerness to learn and adapt to the digital world bodes well for their future socio-economic development, and this initiative stands as a commendable step towards bridging the digital divide in our rural communities.

OUTCOMES

Organizing a workshop on computer literacy for rural women has yielded several positive outcomes. Participants have gained essential digital skills, enabling them to access online information, communicate more effectively, and explore income-generating opportunities in the digital economy. This has not only enhanced their employability but also empowered them to become more self-reliant and entrepreneurial. Furthermore, the workshop has promoted greater gender equality in accessing technology, fostering a sense of confidence and independence among rural women. Overall, it has opened doors to economic and social empowerment, improving their quality of life and contributing to the development of rural communities.
