TALK ON “WOMEN PROTECTION AND LAW”

Date : 29/09/2018
Time : 3.00 p.m. onwards
Venue : Rose Hall, KLEF

OBJECTIVES

The objectives of organizing a talk on "Women Protection and Law" are to raise awareness about the legal and social aspects of women's protection, to educate the audience about existing laws and regulations aimed at safeguarding women's rights, to discuss the challenges and gaps in their enforcement, and to foster a dialogue on the importance of empowering women and promoting gender equality in society through legal avenues.

DESCRIPTION

The program started with resource person Dr. T. Naga Lakshmi, Assistant Professor, Dept. of Law, KLEF. She told that despite of formation of various effective rules and regulations by the Indian government to handle and control the crimes against women, the number and frequency of crimes against women are increasing day by day. Women status in the country has been more offensive and dreadful in the last few years. It has decreased the confidence level of women for safety in their own country.

She also told that Women are in doubtful condition for their safety and fearful while going anywhere else outside their home (office, market, etc). We should not blame the government because women safety is not only the responsibility of government only, it is the responsibility of each and every Indian citizen especially men who need to change their mind set for women. Dr. T. Naga Lakshmi told Some tips to students regarding Women Safety

- Self defense techniques are the first and foremost thing to which each and every woman must be aware of and get proper self- defense training for their safety. They must be aware of some effective defense techniques such as kicks to groin, blocking punches, etc.
- Generally most of the women are gifted with sixth sense which they must use whenever they become in some problem. They should at once avoid any situation which they feel bad for them.
- Women must understand and feel their physical power and use accordingly. They never feel themselves inferior than men and take some self defense training.
- They should be careful while communicating with someone on internet in the cyberspace.
- They must have all the emergency numbers with them.
- Women should be very conscious while driving the car and going to any trip. They must lock all the doors of car while travelling.

List of Women Protection Laws:

1. The Criminal Law (Amendment) Act, 2013 (Nirbhaya Act)
2. Sexual Harassment of Women at Work Place Act 2013, etc.
3. Indecent Representation of Women (Prevention) Act 1986,
4. Indian Penal Code (1860)
5. Gender equality and
6. Women's fundamental rights to equal protection of the laws and
7. Right to life and liberty

OUTCOMES

The outcome of organizing a talk on "Women Protection and Law" is expected to result in increased knowledge and awareness among the audience about the legal mechanisms in place to protect women's rights and the challenges they face. Additionally, the talk should promote discussions and actions that contribute to a more gender-inclusive and equitable society, where women are better informed about their rights and society as a whole is better equipped to support and advocate for women's protection, thereby fostering a safer and more equal environment for women.
