Youth Red Cross (YRC)

The poster features a blue background with a glowing thyroid gland, a DNA helix, and medical icons. It includes the KL University logo and the Youth Red Cross logo. The central text reads 'Thyroid Awareness Program'. Below this, there are four icons representing: Recognize Symptoms, Get Screened, Thyroid Testing, and Expert Health Advice. A clipboard with a 'THYROID TEST' form is shown, with 'TSH' checked and 'T3' and 'T4' unchecked. A stethoscope is also visible.

Recognize Symptoms **Get Screened** **Thyroid Testing** **Expert Health Advice**

Objective:

The Thyroid Awareness Program is to create awareness among participants about thyroid disorders, their symptoms, risk factors, early detection, and management. The program aims to educate individuals on the importance of timely screening, understanding thyroid function tests (TSH, T3, T4), and adopting healthy lifestyle practices to prevent complications. It also seeks to encourage early diagnosis and guide participants toward appropriate medical consultation and treatment when necessary.

Description:

The Youth Red Cross (YRC) students of Koneru Lakshmaiah Education Foundation (KLEF) organized a Thyroid Awareness Program in Kolanukonda village as part of their outreach community initiative. The program aimed to educate the local community about thyroid disorders, their symptoms, causes, prevention, and management.

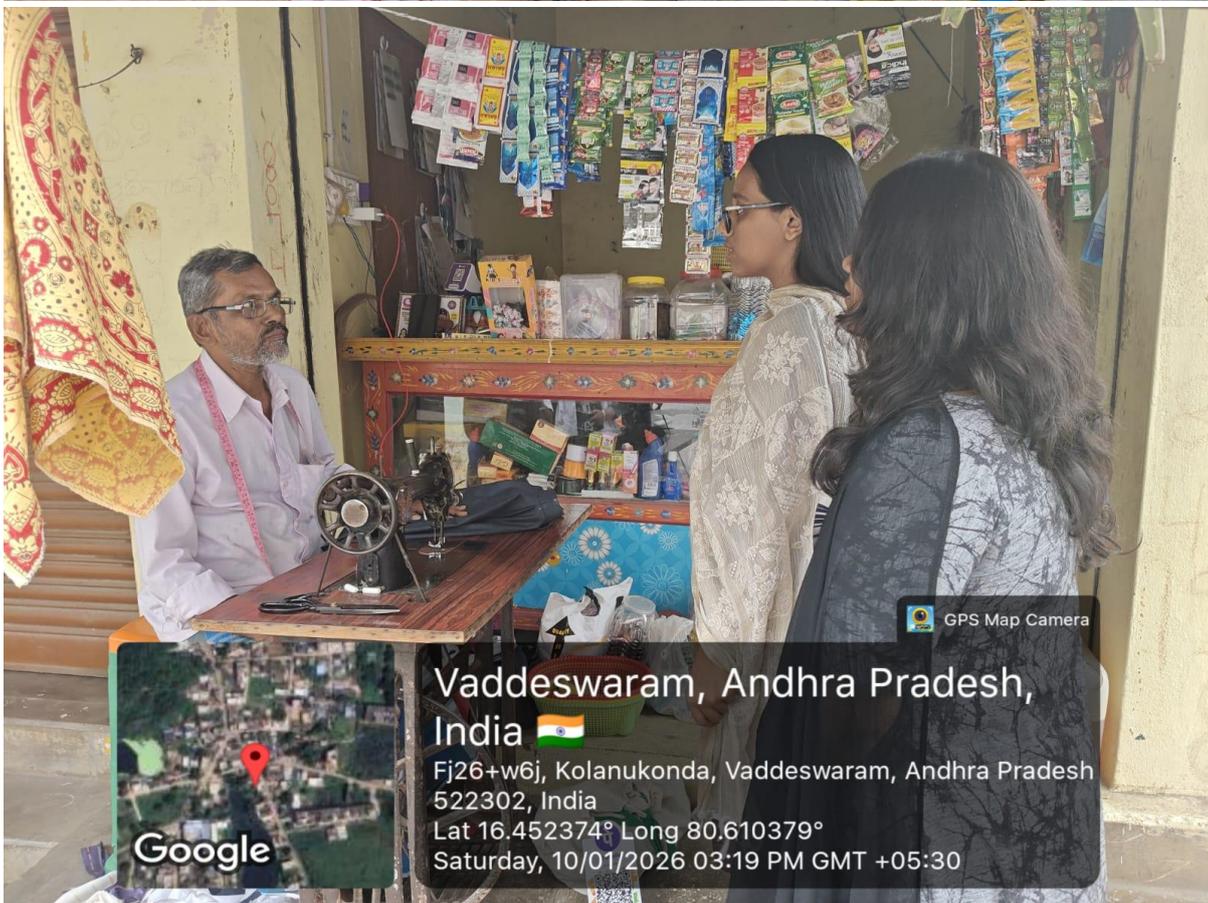

Procedure of the Event:

- The KLEF_YRC team arrived at Kolanukonda at around 10:00 AM and made the necessary arrangements for the program.
- The event commenced with an awareness session explaining the structure and function of the thyroid gland, common thyroid disorders, their symptoms, and the importance of early detection.
- The program was organized by the Youth Red Cross (YRC), KLEF, in collaboration with local authorities and community members of Kolanukonda.
- Interactive sessions and educational activities were conducted to create awareness about thyroid-related problems, preventive measures, and the importance of regular screening.

Outcome of the event:

The Thyroid Awareness Program was successfully conducted with active participation from the residents of Kolanukonda. The program enhanced awareness about thyroid gland function, common thyroid disorders, their symptoms, and the importance of early diagnosis through thyroid function tests such as TSH, T3, and T4. Participants gained better understanding of preventive measures and the need for timely medical consultation. Overall, the event contributed to improved health awareness and encouraged individuals to seek regular screening for early detection and management of thyroid-related problems.
